

**METHOD STATEMENT: MS010**

**Task description: Deep cleaning fridges**

<b>Equipment</b>
Detergent/ disinfectant - food safe, no odour
Sponge/ lavette cloth - green
Washing up detergent i.e Fairy liquid
Microfibre cloth - green
General waste sack
<b>PPE</b>
Nitrile Gloves/ rubber gloves
<b>Safety</b>
Use correct manual handling positioning - do not over reach/ stretch
Use correct colour coding for cloths
Beware of sharps i.e broken plastic/ glass edges
<b>Procedure</b>
Empty and dispose of all "out of date" products in the waste sack
Temporarily remove any remaining items in the fridge and put aside during cleaning process
Carefully remove any door shelves/ compartments and wash out by hand using washing up detergent, leave on drainer to air dry or use kitchen towelling to wipe dry.
Spray internal walls, glass shelves, door seal, drain and external doors of the fridge with detergent disinfectant, and wipe out thoroughly with damp lavette cloth.
Remove fridge drain plug, and wipe out thoroughly. Replace fridge drain plug after cleaning.
Using microfibre cloth buff all surfaces to remove last debris and watermarks
Replace door shelves/ compartments and return food items to fridge, placing newer dated items at the back and older items to the front of the fridge.
