

QCC Environmental and sustainability policy

Quality Care Cleaning Ltd is a provider of cleaning services in and around the Cambridge area. Our principle activities are the cleaning of offices, laboratories and other commercial premises.

Our aim

We are committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work. Concern for the environment is an integral and fundamental part of this commitment. Our aim is to reduce the impact on the environment from our operations. We believe in "People, Planet & Profit" in that order.

Our policy is to meet and, where practicable, exceed all relevant regulatory requirements and to minimise any adverse environmental effects caused as a result of our activities and products used. Our main aims will be to achieve the following;

- **Social sustainability and human capital which is essential in a service industry**
 - To promote a workplace culture that values people and communities, inspires employees to be more productive resulting in a more attractive business to investors, customers and future potential employees.
 - To promote a workplace culture that values people and communities, inspires employees to be more productive resulting in a more attractive business to investors, customers and future potential employees.
- **Environmental & Sustainability Management**
 - To promote sound environmental management policies and practises throughout the Company and to Clients.
 - As a minimum, to comply with the requirements of relevant legislation
 - To reduce, and where practical prevent pollution
 - To adopt targets for improving environmental performance
 - To ensure a sound understanding of current environmental performance.

How will we make a difference?;

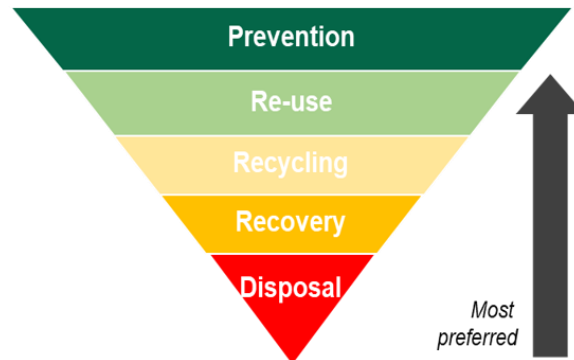

- **Reduce water usage**
- **Reduce our energy consumption**
- **Reduce carbon emissions**
- **Minimise waste, maximise recycling**
 - We will promote and implement the segregation of waste streams to ensure opportunities to Prevent, Re Use, Recycle are realized.
 - We will promote the implementation of centralized segregated waste systems amongst our clients.
 - We will work electronically where possible to reduce the use and wastage of paper.

- We will promote economic waste streams for hazardous waste to reduce carbon emissions where possible with our clients.

Our approach to waste can be better explained in the following Waste Hierarchy diagram;

- **Responsible procurement**

- We will assess all suppliers as part of our procurement process to promote “life cycle thinking”
- When we source chemicals, we will consider how the product may have harmed the environment during manufacture as well as when we intend to use them.

- **Raising awareness**

- To communicate internally and externally, the Company’s environmental objectives and performance.
- To raise awareness to staff and clients of the Company’s impact, activities and performance and good practise.
- To provide the appropriate training and feedback to staff.
- To encourage and facilitate suggestions on good environmental practise
- In addition, and as a supplier to many other businesses operating in a variety of industries, we are in a position to promote and provide solutions via our operations and services to benefit the wider sustainability agenda and to feed into their own policies.

RESPONSIBILITIES

Employee involvement in environmental & sustainability matters is encouraged at all levels and will be promoted through training, communications and a constant reappraisal of working methods and techniques.

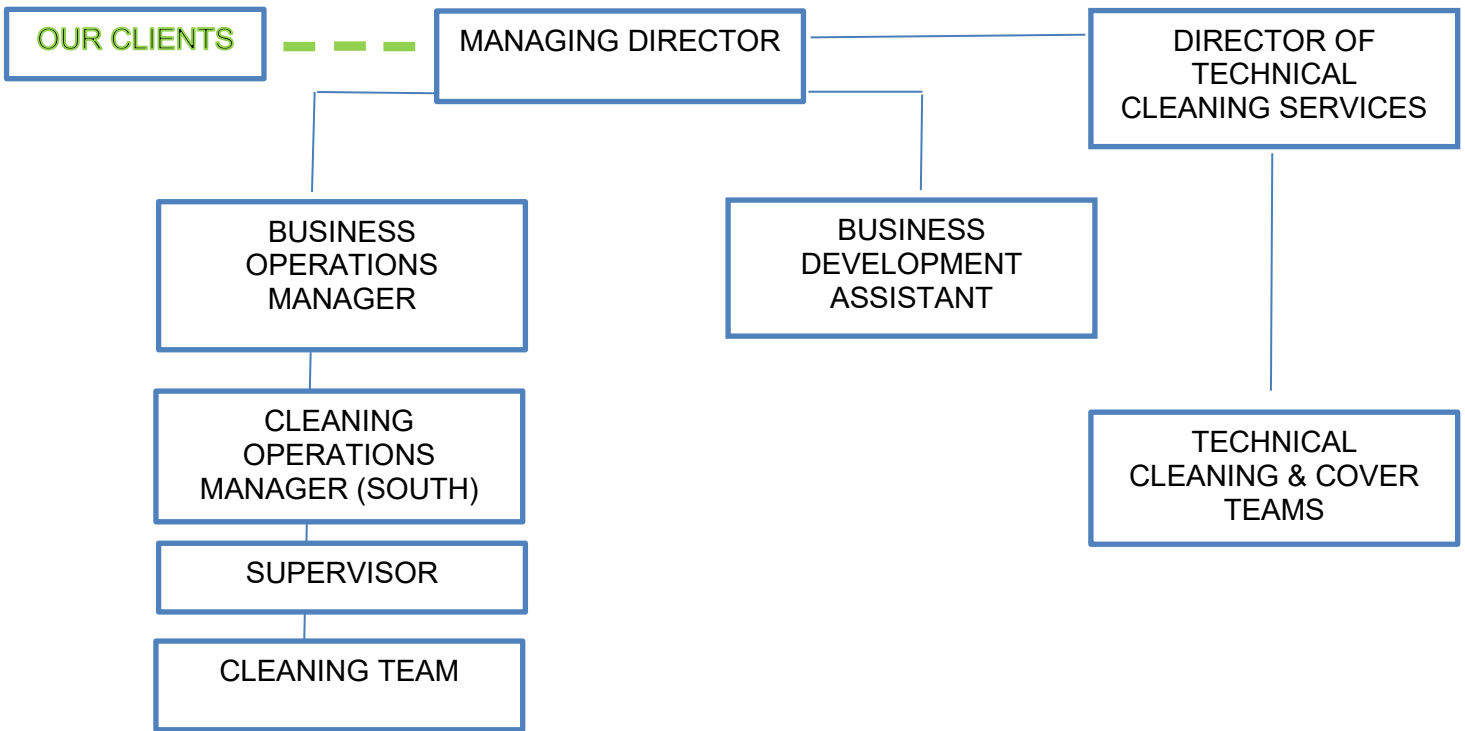

The Directors and management of Quality Care Cleaning Ltd are committed to the implementation of this policy and will give full backing to all those authorised to carry it out.

Our environmental management system which applies to all of our activities provides for the setting of objectives and targets and it is our aim to secure continual improvement in environmental performance.

 - take action where practical and safe to enhance environmental performance co-operate with the company and follow any appropriate Environmental & Sustainability policy or procedure

Our environmental/sustainability action plan

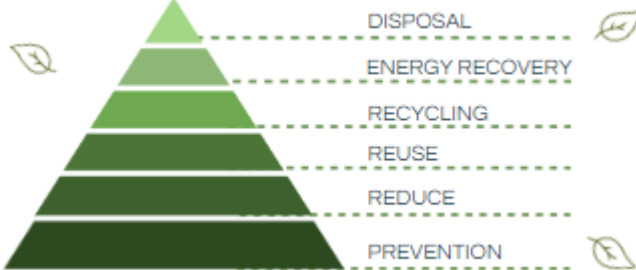

Through our work with our customers, we are in a position to promote the wider sustainability agenda. Many of our customers themselves have established the policy and process to promote sustainability.

We will assess the environmental impacts of our operations and set objectives and targets in order to improve our environmental performance. We will regularly review these targets.

Policy objectives	Actions	Frequency
Promote responsibility for the environment within the organisation and communicate and implement this policy at all levels within the workforce;	<ol style="list-style-type: none"> 1. Environmental & Sustainability policy available to all staff on staff website log in 2. Environmental & Sustainability policy available in staff company handbook. 3. Environmental & Sustainability awareness training in our workplace is given during induction to all staff. 4. Environmental & Sustainability news/ change in practise/ ideas shared with staff in Quarterly staff newsletter 5. Monthly and quarterly meetings held with staff (on campus set up) to discuss environmental & sustainability responsibility, ideas and changes 6. We will seek suppliers whom can demonstrate significant efforts to work sustainably whilst limiting/ negating/ reversing damage to the environment. 	<p>Continual</p> <p>Continual</p> <p>Annually</p> <p>Quarterly</p> <p>Monthly</p> <p>Annually reviewed</p>
Reduce the use of energy, water and other resources;	<ol style="list-style-type: none"> 1. Machinery battery charging is set up on socket timer to reduce wastage 2. All computer monitors are to be turned off when not in use. 3. Lights to be turned off when area not in use 4. Search for innovation to reduce use of energy, water or waste i.e Waterfed mopping systems 5. Mop buckets are only half filled to reduce waste water. 6. We will monitor the use of our vehicles better plan journeys to reduce the mileage of vehicles. (<i>Use of vehicle tracking devices</i>) 7. Where possible, we will source vehicles which provide a lower carbon emission, such as hybrid or electric vehicles. 8. We will efficiently schedule work with regards to service provision and deliveries to minimise the number of journeys and maximize the most efficient routes. 	<p>Continual</p> <p>Continual</p> <p>Continual</p> <p>Continual</p> <p>Continual</p> <p>Weekly</p> <p>As required</p> <p>Daily/ Weekly</p>
Minimise waste by reduction, re-use and recycling methods;	<ol style="list-style-type: none"> 1. We will work electronically where possible to reduce the use and wastage of paper. All paper printing is monitored per print to measure effectiveness and control. 2. Installation of hand dryers is encouraged over paper towel use. 3. Promote use of recycling toilet paper/ consumables. 4. Centralised (recycling) waste receptacles are promoted to our customers by way of provision of the recycling unit, and quotation only to allow for collection of waste by centralised units only. 5. Recycled plastic waste sacks used for collection of waste. 6. No liner waste collection promoted to client. 7. Reusable micro fibre cloths used for cleaning 	<p>Continual</p> <p>Annual</p> <p>Regularly</p> <p>Regularly</p> <p>Regularly</p> <p>Continual</p>

	<p>8. Working with waste management companies who promote effective recycling.</p> <p>9. We will promote economic waste streams for hazardous waste to reduce carbon emissions where possible with our clients.</p> <p>10. Using where possible recycled dispensers and paper goods. i.e Katrin dispensers</p> 	<p>Regularly</p> <p>Continual</p> <p>As required</p> <p>As required</p>
<p>Comply with all relevant environmental & sustainability legislation/regulation;</p>	<p>1. Monitored at senior management meetings</p>	<p>Monthly</p>
<p>Ensure that our policies and services are developed in a way that is complimentary to this policy;</p> <p>Not prioritise funding needs ahead of sustainability requirements;</p>	<p>2. Environmental impact will be considered at all stages of service or operation design. This is considered a key element of our product/ service quality.</p> <p>3. Funding is made available within the budgets by way of "Environmental development fund" to ensure investment into environmentally beneficial operations takes priority over profitability.</p>	<p>Ongoing</p> <p>Annual</p>
<p>Encourage customers to commit to the sustainable development philosophy;</p>	<p>1. Tips to improve sustainability and reduce environmental impact will form part of our quotation/ tender with clients and will be added as an agenda'd point in customer review meetings.</p>	<p>In progress</p>
<p>Identify and provide appropriate training, advice and information for staff and encourage them to develop new ideas and initiatives;</p>	<p>2. Prize draw surveys are sent to staff to encourage and welcome ideas and solutions to improve sustainability.</p>	<p>6 monthly</p>
<p>Provide appropriate resources to meet the commitments of this policy;</p>	<p>3. The appropriate time resource is invested during induction and management review to ensure the commitments of the policy are carried out.</p>	<p>Annual and ongoing</p>
<p>Promote and encourage involvement in local environmental & sustainability initiatives/schemes.</p>	<p>4. To liaise with local council groups/ support groups or schemes to contribute or sponsor where possible to initiatives in the local area.</p>	<p>As required</p>
<p>To consider/ achieve relevant accreditation to better manage and control the environmental & sustainability policy i.e ISO14001</p>	<p>5. To discuss with accreditation agencies.</p>	<p>Ongoing</p>

This action plan is available to all staff on our intranet site and has been drawn to their attention. The plan is discussed and documented in the Quarterly Senior Management Meeting.
